

International Leadership Training: Social Security

Time Frame: 01.01.2005 - 31.12.2011
Product ID: 7403500000
Target countries: Indonesia, Philippines, Vietnam, Cambodia

Objectives:

The training course is designed to enable leading personnel in the field of social security, in partner countries to learn about effective macro policies and strategies in the social sector and to become familiar with modern management instruments relevant for Social Security Institutions (including business and administration procedures, mathematics and IT tools) Individual achievements in the training will increase effective, efficient and needs-oriented management in governmental policy making and insurance/health care systems management. The participants are supposed to take on a multiplier role in implementing reform in the social security sector in their home countries.

Contents:

The curriculum includes the following modules:

- Introduction, Fundamentals and History Development of Social Security Systems
- Economics, ethics, risk and social security
- Business Administration in Social Security
- Financial Management and Controlling in Health Insurance Systems and Management Information Systems
- Management Analysis of Social Policy
- Policy, Reform and Governance in Social Security Systems
- Management skills

Learning and Teaching Methods:

The different components of the course imply the use of mixed methods of learning:

- Self-determined and interactive learning
- Practical project work, guided by experts
- Intercultural and gender sensitive training approach
- Internet platform for sharing ideas, self-learning and networking

Partner organisation:

- PT ASKES (state owned sickness fund) Indonesia
- PT Jamsostek, (state owned pension fund) Indonesia
- Ministry of Law and Human Rights
- Social Security Systeme (SSS), Philippines
