

Module 8 - Questionnaire to study the cases

Participants can fill in the inventory table of existing social protection schemes and answer the questions related to the social protection strategy, policy gaps, and implementation issues.

a) Inventory table on existing social protection schemes

Name of scheme	Legal framework	Responsible body	Target group	Eligibility criteria	Population covered	Benefits	Financing
----------------	-----------------	------------------	--------------	----------------------	--------------------	----------	-----------

b) What is foreseen in the Government's strategy?

--

c) What are the main policy gaps?

1. Has the social protection floor been achieved? Does the entire population have access to the guarantee?

-
2. Has the country developed a legal framework to guarantee access to social protection benefits?

-
3. Has the country developed rules and regulations to ensure that the law can be implemented?

-
4. Is the entire population covered by the social security law? If not, who is not covered?

5. Are some of the schemes established on a pilot or ad-hoc basis without any legal basis?

6. For those covered by the social security law, is the level of protection sufficient and adapted to their needs?

7. Are the benefit packages clearly defined?

d) What are the main implementation issues?

1. What proportion of the population is entitled to social security but has no access to social protection benefits?

-
2. Is the supply of social services adequate in all parts of Coresia?

-
3. Is the population aware of existing social protection schemes and of their entitlements?

-
4. Are all programmes efficiently managed? Properly staffed? Rely on a proper management information system?
